

Your research project

Translated into the medicines of tomorrow

CALL FOR PROPOSALS

Danube Labs accelerates research projects on new therapeutics into mature programs ready for spin-out company formation, or out-licensing

What we are looking for:

- ✓ Innovative drug discovery projects from Universities and Research Institutes in Central and Eastern Europe (stage of development: at least *in vitro* PoC, ideally *in vivo* PoC)
- ✓ Projects with significant commercial potential and medical unmet need
- ✓ Intellectual Property (either filed patents or potential for new IP)
- ✓ Collaborative team spirit

Who we are:

Danube labs is a partnership between:

CEBINA | Central European
Biotech Incubator
and Accelerator

CEBINA
— Bridge Capital —

We provide funding to bridge the gap between academia and industry, translating academic research projects into focused drug discovery programs

How it works:

- Submit a 1-3 pages overview of your project
- For selected projects, we will work with you to create a detailed project outline
- Our Joint Steering Committee will decide on Danube Labs awards (**500k€ + 500k€ in kind**)
- For awarded projects research work will be carried out by you, Evotec and CEBINA to reach the planned milestones within 6 to 9 months
- Projects that meet the defined milestones and success criteria will be commercialized (either creating a spin-out company or out-licencing)

Submit your project [here](#)

Deadline: 6th October 2023
